- In 2008 it is estimated that Jones County's health care industries produced over \$23 million in direct output revenue and contributed an additional \$6 million (indirect and induced) in health care goods and services for a total dollar output value that can be attributed to health care industries of \$29 million. The Output multiplier (1.2517) shows that for every \$1 in revenue produced by health care industries and additional \$0.25 was generated in the county's economy.
- Health care industries paid in wages and benefits to its employees over \$13 million (direct) and contributed an additional \$1 million (indirect and induced) for a total labor income that can be attributed to health care industries of \$14 million. The Labor Income multiplier (1.1120) shows that for every \$1 paid in wages/benefits paid to health care industry employees produced an additional \$0.11 in other wages/benefits throughout the county.
- In 2008 health care industries employed an estimated 266 (direct) and generated an additional 64 (indirect and induced) full/part time workers for a total work force that can be attributed to health care industries of 330. The Employment multiplier (1.2418) shows that for every 1 worker employed in the health care industry, an additional 0.24 workers are employed in the county's work force.
- In 2008, county total personal income and gross retail sales data show that approximately 10% of personal income generated was spent in local retail stores. Using this retail sales capture ratio of 10% it is estimated that the \$14 million paid to health care and support employees generated over \$1 million in local retail sales. Not all retail sales are taxed by the state or local governments. However, one can assume that much of the \$1 million generated by retail sales would be subject to both state and county taxes – generating additional revenue.
